The President’s Graduate Diversity Fellowship program was established in 2014 to attract outstanding underrepresented students to pursue a Ph.D. degree at Indiana University Bloomington and Indiana University-Purdue University Indianapolis. The program offers a multi-year funding package, professional development and mentoring support to outstanding scholars in all fields. In joining the IUPUI academic community these scholars, through their research, teaching and service, will enhance scholarship through the numerous benefits that diversity confers.

The fellowship package guarantees recipients receive a full stipend, tuition and health insurance during a five (5) year period as they work towards the Ph.D. degree. **Two years are provided as fellowship** with no duties beyond continued progress towards the degree. During those years, the stipend level is $20,000-$25,000 depending on the discipline. The fellowship stipend and subsidized health insurance are provided by the University Graduate School. **For the remaining years, funding is the responsibility of the Department**, and is derived from a combination of scholarships, research and/or teaching assistantships. Because this fellowship is intended primarily as recruitment tool, funds for **a recruiting visit** are also included.

Eligibility for the President’s Graduate Diversity Fellowship is limited to:

1) Citizens, nationals, and permanent residents (holders of a Permanent Resident Card) of the United States.

2) Individuals belonging to one or more of the following classes:
   a) Must be an underrepresented minority, URM, in their particular discipline. The term URM includes DOMESTIC African Americans, American Indians, Alaska Natives, Asians, Hispanics, Native Hawaiians or other Pacific Islander.
   b) Person with disabilities. Under ADA, an individual is considered to have a disability if he or she has a physical or mental impairment that substantially limits one or more of his or her major life activities and has a record of such impairment.
   c) A gender minority (<30% of the current graduate population in the department).
   d) A first generation college student (a student whose legal custodian(s) did not complete a four-year college degree).

Selection criteria will include the following:

1) Evidence of superior academic achievement (such as grade point average, class rank, honors or other designations. M.S. coursework and other relevant experience recognized).

2) Commitment to a career in teaching and research at the college or university level.

3) Indiana University and Purdue Ph.D. programs at IUPUI are eligible.

4) Individuals who have not earned a doctoral degree at any time, in any field.
Procedure and obligations of the host unit:

1) **Students must be nominated by their departments/schools.** In nominating the student, the department verifies that the department is admitting the student to their graduate program, and agrees to educate the student and encourage the student’s participation in campus-wide mentoring activities, as appropriate. Departments must also agree to ensure that award recipients do not accept other graduate awards or employment during the period of funding (fall 2019 and spring 2020), and to submit an annual progress report on behalf of the student.

2) The nominating department agrees to the following funding terms and obligations:
   a) Two (2) years of fellowship stipend and health insurance provided by the University Graduate School. Departments may supplement this stipend to be consistent with other students.
      1. The first fellowship year must be taken before the student is admitted to candidacy. This fellowship year requires the host unit to provide a full 30 credit hour fee remission. The fellowship stipend and subsidized health insurance are provided by the University Graduate School.
      2. The second fellowship year (dissertation) must be taken once the student has been admitted to candidacy and
         a. For IU programs is either enrolled in G901 or is enrolling for one credit hour.
         b. For Purdue programs has a submitted and approved Purdue Form 10, Report of the Preliminary Examination.
         c. The student’s program will provide tuition remission for the second year (dissertation) of fellowship support.
   b) Three years of SAA support (Associate Instructor, Research Assistant or Graduate Assistant) with stipend, a full 30 credit hour fee remission and health insurance from the home department
      Departments and programs are encouraged to provide additional support in terms of stipends, travel awards and/or tuition and to include this in their offer letters.

3) This fellowship includes participation in required mentoring activities by fellowship holders. Required mentoring activities will likely vary by campus but may include:
   a) Participation in the Graduate Mentoring Center activities and workshops
      Attendance at the Institute for Teaching and Mentoring by the Compact for Faculty
   b) Diversity
      Participation in activities sponsored by the National Center for Faculty Development &
   c) Diversity.

In any one year, the University Graduate School can support a total of 10 students, thus the number of offers made in any one year cannot allow the total supported in the next or subsequent academic years to exceed 10 students across the two core campuses (IUB and IUPUI).
2019-2020 Recruitment Awards
Nomination Guidelines

CONFIDENTIALITY - Each nomination is confidential, and will only be viewed by the fellowship selection committee and by professional staff who administer the awards.

The Chair of Graduate Admissions, Director of Graduate Studies, Departmental chair, or Associate Dean of Graduate Studies should first secure approval from the Associate Dean of Graduate Studies (if it is not the Associate Dean submitting the application). Please submit the following for each student nominee as ONE PDF:

1) A complete copy of the student’s application for admission to a Ph.D. program at IUPUI.
   Applications must include:
   a) Application form
   b) Statement of purpose
   c) Recommendation letters
   d) Transcripts and Official GRE test scores
   e) First generation college student status certification (if applicable)

2) A brief supporting statement (no more than 2 paragraphs) explaining: a) why this candidate is outstanding; b) how well matched the candidate’s interests are to the strengths of the department; c) how the department recruited the student (how much contact and by which faculty); d) the likelihood the candidate will choose IU or IUPUI over competing offers.

3) A detailed funding template including minimum stipend amounts, tuition and subsidized health insurance for a full five year support package (see example). Four-year packages should be developed for incoming Ph.D.-seeking students entering with a Masters degree, and five-year packages for Ph.D.-seeking students entering with a bachelor’s degree. The University Graduate School and College/School partners will provide funding for two years of full stipend, health insurance and tuition according to candidacy status. The remaining years should be funded by individual departments in the form of AI, GA, or RA positions. Student funding may also be available through training or research grants. Priority will be given to nominations from STE/IM (sciences, technology, engineering, informatics and math) graduate programs.

4) A brief department diversity statement, describing the department’s current diversity (% of graduate student body) and any initiatives to increase recruitment and retention of a more diverse graduate student population. Each statement should be tailored to the particular fellowship the nomination is for. For example, how does the Presidential Diversity Fellowship advance URMs in their field of study? What efforts has the department made to identify and recruit members of underrepresented groups? What mentoring activities, professional-skills training, and career-development opportunities will be available to the Fellowship holder in your department?

To submit the nomination, units will complete an online cover page, http://go.iu.edu/250r for each applicant, and upload the appropriately-named PDF to the online cover page form no later than 5 pm on Friday, February 15, 2019. To assure review of the nomination the department/unit must use this file name format: Lastname of nominee-Dept-PresDiversity.pdf.

Please note: If you do not upload the file as instructed, it will be deleted and you will be asked to resubmit.
FIVE YEAR FUNDING TEMPLATE:
2019-20 President’s Graduate Diversity Fellowship Terms and Obligations for «Firstname» «Lastname» Department of «Dept_Applied»

Student is to receive five (5) years of support as outlined below:
1) You must specify the years in which scholarship support will be taken according to the criteria outlined above.
2) If additional year(s) of support are offered by the unit as part of the admissions letter these must be specified below. If less than 5 years support will be provided, please provide an explanation for the review committee.

Student Academic Appointment (SAA) may be in the form of AI, GA or RA positions.

The student will be responsible for paying mandatory fees (currently around $900 per semester), agree not to accept other graduate scholarships or employment, and to meet with deans in the University Graduate School during the term of the fellowship.

The department will encourage the student to participate in University Graduate School mentoring activities that are both relevant and appropriate to their career aspirations and will submit an annual report on behalf of the student, summarizing their progress towards the degree.

I agree to the terms outlined above:
