- Fall 2021

2021-2022 Cycle
- Winter 2021
- Spring 2022
- Summer 2022
- Fall 2022
Future Academic Years – opening admissions

• If you set up future academic years (2021, 2022) in the current cycle, you will have a few options:

  – Process the applications in the current cycle and make your final admission decision

  – Set the applicants to Deferred and move them to the new cycle when it opens and process their applications nearer to the beginning of the program term they are applying for

    • Only basic details on the applicant will be available in the new cycle.

  – Open duplicate programs in each cycle and work admissions for the applicant pool by utilizing the cycle switcher in WebAdMIT
Thank You!
