

Request for Exception to CAND 99100 + 1 CR Enrollment

This exception request is for **non-thesis** Master's graduate students who have completed all degree requirements but who are not graduating until the following term. Exception to enroll directly into CAND 99200 will be granted and course permission established for students meeting all requirements.

Please acknowledge the following:

I have satisfactorily completed all required coursework for my degree and all grades have been entered in the semester prior to graduation semester.

I have no incomplete grades in my graduate studies that need resolution (including courses that are not on my plan of study).

My Plan of Study GPA is at or above the minimum to graduate and I have met all alternative graduation criteria for my non-thesis Master's.

I understand that this is a one-time option; if I do not graduate while enrolled in 99200, my only option for future terms is to enroll in CAND 99100 plus 1 credit of fee-bearing enrollment.

International students only:

I acknowledge that it is my responsibility to learn how CAND 99200 **non-full-time enrollment** will impact my visa status by working with the Office of International Affairs student services office.

I acknowledge that if my request for exception is approved, the Graduate Office is not responsible for any impact this may have on my visa status.

I acknowledge that if I directly enroll in CAND 99200 and then change my mind, I will need to enroll instead in CAND 99100 plus 1 credit of fee-bearing enrollment (and any late fees are my responsibility).
